## Certified Organic

The demand for organically grown products has continued to grow for the past several years. Pawnee Buttes Seed continues to provide quality seed to its customers to help meet their demands for organic seed products.

As of November 2011, Pawnee Buttes Seed became the only Certified Organic Seed handler in Colorado under the guidelines of the Colorado Department of Agriculture. With this certification, Pawnee Buttes Seed can produce a certified organic seed mix to fit specific organic seed requirements. Look for the seal!
